

Cable type		Model No.	Length	Description		
5-core	Discrete wire	SFD-CCB5-S	5m	Used for connecting the safety light curtain to other cables or the safety control unit SF-C13 / SF-C21		
		SFD-CCB10-S	10m	2 pcs./set for emitter and receiver		
	Connector	SFD-CB05-S	0.5m	Used for connecting the safety light curtain to an extension cable		
				2 pcs./set for emitter and receiver		
				Connector outer diameter: max. ø14mm		
	8-core	Discrete wire	SFD-CCB3	3m	Used for connecting the safety light curtain to other cables or the safety control unit SF-C13 / SF-C21	
SFD-CCB7			7m	2 pcs./set for emitter and receiver		
SFD-CCB10			10m			
SFD-CCB15			15m			
Connector		SFD-CB05	0.5m	Used for connecting the safety light curtain to an extension cable or the safety control unit SF-C11		
				SFD-CB5	5m	2 pcs./set for emitter and receiver
				SFD-CB10	10m	Connector outer diameter: max. ø14mm
12-core		Discrete wire	SFD-CCB3-MU	3m	Used for connecting the safety light curtain to other cables or the safety control unit SF-C13 / SF-C21	
	SFD-CCB7-MU		7m	2 pcs./set for emitter and receiver		
	SFD-CCB10-MU		10m			
	Connector	SFD-CB05-MU	0.5m	Used for connecting the safety light curtain to an extension cable		
				2 pcs./set for emitter and receiver		
				Connector outer diameter: max. ø16mm
