

995 Mini 4-PIN Pinning Head

Product Code: A995-MINI-4PIN

The 995-MINI-4PIN Pinning Head is designed for use with the Meech IonCharge 30 static generator.

It can be operated at up to 30kV and being resistively coupled are near shockless in normal operation.

The 995-Mini-4Pin is designed for electrostatically charging and pinning objects, one of which must be insulative.

Features

Resistively coupled

High pin density

Sealed construction

PTFE pinner head

Benefits

Spark free, independent operation to avoid tripping

Powerful and even pinning from 7mm pin pitch

Allows for mounting in areas subject to washdown or spillage

Provides higher temperature resistance

Technical Characteristics

Dimensions	(L) 50mm x (W) 38mm x (D) 12.5mm
Operating voltage	Up to 30kV D.C.
Power Source	Meech IonCharge 30
Cable	2 meters of HT cable as standard
Connector	Compact Plug
Construction	PTFE
Emitter Pins	Titanium
Max temperature	115°C
Operating polarity	Either +VE or -VE
